

IT'S TIME

Problem

You're in Pelican Bay, you did your whole time
Yeah
You're out now
Yeah
No, wait, so, tell me
Yes, ma'am
Where are you at now?
Okay, where am I at now with what?
In life, where do you wanna be? I know you wanna be a rapper
Okay, look, look, this is what happened
Okay, let's just, let me ask you this, what are, what are—
I got you, I got you, I'ma tell you
What are you gonna do to keep yourself safe from not going back
?
So that you could accomplish what you wanna accomplish in life?
Just thinking about my mom and my grandma and just
That I wanna make my grandma proud before she passes away, and
like
People like, you know, Janessa and like, they are just
Going out the way
People that are cheering for you
Yeah, going out the way because it's crazy how people hate on me
And my hood and K. Chae and my cousin Cloudy Strat, just my homies
And shit just counting on me, rooting for me like, "Okay, he really got a chance," and like
My city Baldwin Park like, don't nobody really make it out that city, you know what I'm saying?
And people can say what they want, my city's booming
My city's cracking and-and-and like all odds are against me
Just, you know, statistics, all odds are against me
And I feel like right now is it, this is it
