

Moment of Clarity

Problem

(Intro)

That nigga sayin what?!

Ha ha

Damn right

(Verse)

Let's make a few things clear

When you're gone I'll still be here

Won't miss a day, this ain't leap year

We knock out teeth here

Shoppin like a new freak every week here

The smell good with pretty feet here

Had to risen from the ashes, predicted by the masses

To be one of the few that persevere through the ratchet era

80's baby, the classic era

Got the skill to bounce back, I'm elastic terror

Turn that, surrounded by smoke

Grew niggas with no bread, care from some toast?

Crazy right?

Went from a rapper to a trapper then back to a rapper

My definition of a crazy life I guess

God's with me, so it's like who I got to impress?

Heartless, the life bitch put a knife in my chest

And so what? Is it kinda prove real life to my chest

Pulled it out, stuck out and I'm lookin to slice the rest of you motherfuckers

Wait a minute, I'm a ladies man

Not that nigga frontin here with the crazy vans on

Out here gangbangin with the little pants on

Old nigga, forever young, get my Peter Pan on

Huh, we don't need no niggas' validation

I speak for the domination every time I talk

We did what? Don't believe them allegations

Be a slave and tell by the way you walk, talk and think

By the smell of this dank

Spend my time in they bitches, the other half in the bank

My grind had no limits, I'm Master P in a tank

With super psychin, C Murda talkin the shank

And niggas takin shots just like they bustin with blanks

I hear but don't feel em

I'll punch em, but won't kill em

It ain't my MO

But I got niggas for that

Don't need no more rubbers on my dick, I got bitches for that

I think they should start spellin the nigga

P-R-O-B-L-E-M

Bird, let's petition for that

Get the dictionary ready,

Keep my girl, the energy is more than the two trips of Mary Mary

Very scary, the coupe is very dary

Milky white, lounging at the polo lounge, deeper than Barry White

Voice buried 24 feet in the ground

It's real in the field, got my clicks on em now

(Outro)

They like P what you doin? Wanna switchin yo style right now? You winnin

Yea, but as yo mind change, yo grind change with it
Would be the same old nigga if I did it
