

ONE DAY AT A TIME

Problem

We all just tryna figure it out
We just takin' it one day at a time
One day at a time, one day at a time
What's been going 'round been comin' back 'round
We just takin' it one day at a time
One day at a time, one day at a time

I feel like it's more than I can take
I'm on the edge and it's 'bout to break
I woke up in a dark place
Only one I trust is me, feel like Scarface
Writin' these songs to the beat of a heartbreak
Drug got me grindin' my teeth, up all night and day
Tryna find a way, find a way to hide the pain
Don't see me outside today, I just wanna hide my face
Hey there, I just want a way out, lately I been way down
Lookin' for some shelter, I been followed by these grey clouds
It's about to rain now, ah-ah-ah
Shed so many tears, they turn to waves now

We all just tryna figure it out
We just takin' one day at a time
One day at a time, one day at a time
What's been going 'round been comin' back 'round
We just takin' one day at a time
One day at a time, one day at a time

7 a.m. up in the morning, toss and turnin' 'round my podie
Conversate with my dead homies, I be duckin', lookin' for police
I'm cuffed up with two Rollies, got a big bag off of Sony
Bought your bitch the bag that she wanted, chopper done, daughter, you don't want it
Helicopter over my opponent
