## Problem

Judge have me fucking up my reflex  
I reel up then I refocus  
Caught five of them, then I caught another three  
Buss them up blood up the whole community  
Hustling with my grinders and my fugitives  
Ain't nobody have time for no excuses, no  
Baby mama tripping off my new bitch  
New bitch tripping bout my baby mama

Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
The homie on leaf cause he's stressin  
Gotta smoke some week I'll be stressin (stressin)

Tired of what they playing on the radio  
I just bout these dealers have got dirt on them  
Police picked the homie said they had dirt on him  
He would be free but his mama snitched  
My daughter always smiling because daddy rich  
Police killing black people everyday  
I'll be ducking white niggas everyday  
But I'll be fucking white bitches everyday

Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
The homie on leaf cause he's stressin  
Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
The homie on leaf cause he's stressin  
Gotta smoke some week I'll be stressin (stressin)

Look!  
Made it from nothing that's real story  
Progress you've gotta be pro-active

Get on my bad side then it's lights out  
Fuck the fast and the future, it's bout right now  
His demons gonna get me chilli cheese fries [?]  
Stuck thirty thousand in these hutches  
Shockas jus can't wait to catch a nigga slip  
Bitch going through my phone when she suspicious  
I love to drive alone on the freeway  
Before I make it home to smoke 3 J's  
Gotta smoke some weed I'll be stressin

Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
The homie on leaf cause he's stressin  
Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)  
Gotta smoke some week I'll be stressin (stressin)
