

# SUPER POWERS 2001

## Problem

It goes on and on  
Can't understand how I last so long crazy  
It's like I got superpowers  
In at least 200,000 pounds of flour  
Hold on I did duck learn my bark from the big dogs  
Hope my confidence don't offend y'all  
Why? You act like this when you make it from where I've been dog

Yeah, suck my dick  
Like everlasting life coming out of the tip  
A philanthropist  
I can grant your wish like a genie in a bottle  
I'm a save one stone let these bitches get your bottom dollar  
You yada yada got you beat up looking like cauliflower  
I could produce a hundred thousand every half an hour  
Lack of confidence lack of power that's what makes a coward  
We built like that you send one we go send him back like a relapse  
From the time when niggas could actually rap  
In the background checks verify where you was really yet?

It goes on and on  
Can't understand how I last so long crazy  
It's like I got superpowers  
In at least 200,000 pounds of flour  
Hold on did duck learn my bark from the big dogs  
Hope my confidence don't offend y'all  
Why? You act like this when you make it from where I've been

A lot of money a lot of pimping a lot of cars  
Lot of houses a lot of women I got it all  
Went from cassettes and wax to CDs and two-inch rails  
Did that's an mp3 and some cute girls in the hood the supermodel?  
I'm buying joints and beer to buying hella bottles  
And I'm still here still getting hoes  
Used to be analog now everything is digital  
I'm so high-tech, a futuristic  
On what it was what it is and what's next was man my chauvinistic or am I sexist?  
I'm just a good vibe you might want to catch it  
I can show you how to get it if you want to get some  
Opportunities knocking don't miss em  
You better listen real close if short dogs spitting game  
Cuz I've been doing this shit since forever, man

It goes on and on
