

## Top Off

## Problem

Hold on  
Did the 9th Wonder fucking files come in yet?  
Goddamn!

Hey 9th, we gon' get some money this year baby  
Hey man, I'm feeling good with my shirt off  
Know how I get it  
Diamond!

I'm riding with the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
With the top off all summer  
With the top off all summer  
I'm riding with the top off

First off  
Take your top off  
Too real to be knocked off  
\$200 slides, my socks off  
It's movie time, I'm box office  
With or without the watch flossin'  
Be cautious, no losses taken this year  
They always thought we'd have a problem making it here  
Pun intended  
No money issue is unattended  
And as far as my attendance with the women, may I be forgiven  
I'm just not committed as I am to gettin' it  
Freshman year, senior, yeah, I been had the vision  
God my witness  
I'm first class fly, ring the school bell  
Hammer on the waist, no tool belt  
Smokin' weed with a dime, straight relaxin'  
Bet I have her ass comin' in 5 like a Jackson  
Quentin Tarantino with the action  
Everyday's a flick, in your hood, post it like a pic, nigga no captions

I'm riding with the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
With the top off all summer  
With the top off all summer  
I'm riding with the top off

This so I could see niggas reactions when I pass them, skrrt  
I'm loved in a section where niggas get murrked  
Used to want the Benz with the frog eyes, small times  
I had the niggas that was I'll-advised, I had to cut 'em off  
And now I'm...  
I'm riding with the top off all summer  
Probs' comin', the broads runnin'...  
In my direction, all fiendin' for my erection  
Claimin' they real as me, but fakin' in them injections (them hoes got)

Digital dashes, leather seats make they (clothes drop)  
Whip coke white makes her (nose hot)  
Wrong rap line will get you (cold-cocked)  
Tryin' a thug, but your soul's not  
Really squared in a closed box  
But boy, if you want some, come get some  
Get close enough to see what's what and then run  
You betta' (zoom)  
Them taggers that kept it crackin' all summer long  
My '17 summer song, for niggas that's dead and gone  
Boys back season, better get involved  
Heard you could watch me get it all, that's your choice  
But know this  
"I'm not to be fucked with"  
I learned the hard way with who I can build trust with  
Temporary fakes is temporary bitches, I done had enough with  
And all the what's up with's  
Nigga cut the small talk, you niggas all talk  
Niggas all bark, code red  
If you comin' for my head, I'mma make it easy

I'm riding with the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
I'm riding with the top off all summer  
With the top off all summer  
With the top off all summer  
With the top off all summer  
I'm riding with the top off
