We uncensored

Not to mention all the drama and tension

When we step in

Your event get shut down when we dumb out

We got good hearts though we ain't start the bout

We just brawled em out and hauled em out

Promoters get scared and put on the lights for the house

Dun we just tryin to have fun

Boo at the ladies and possibly get in the jump

You crazy

You get blown open son

You tried to stop that flow on a big showboat and got cut the most
