

# Give Em Hell

Prodigy

They took permanent vacations in Hell, if you know what I mean  
Wow, I must have been away too long, because my feelings are dead  
I feel no remorse...

Global state of mind, I'm seein' far beyond my nose  
Ten years from now, I'll still be around, spittin' my flows  
Ten years from now, you'll be a memory that no one knows  
I don't feel sorry for you niggas, my feelings are cold  
People dyin' - life goes on, it's...  
Nothin' you can do about it, just be strong, yeah  
Dead-weight niggas try to pull you down with 'em  
They like psychic vampires, suck the life out you  
Mentally, I'm focused, think like a Marine  
Who ride? I ride or die for shit that I believe, like...  
Nobody could stop me  
I'm the illest rapper probably on the earth, niggas copy  
Every line that I draw, these rappers is frauds  
My artwork expensive, they cannot afford  
RSVP, Circa 2012  
How dare a nigga to try and stop me, give him Hell

Oh, word? They put a hit out on me?  
Give 'em Hell  
They wanna threaten my wellbeing?  
Give 'em Hell  
And tell Satan throw some heat rocks up  
For the world's most hottest rapper spittin' flames like a volcano  
Yeah, they wanna turn on me?  
Give 'em Hell  
They wanna stretch me out in the street?  
Give 'em Hell  
And tell Satan throw some heat rocks up  
For the world's most hottest rapper spittin' flames like a volcano

Aye yo, aye yo, they know, they know  
I'll blow a nigga away like tornados  
Niggas with me, they move whenever I say so  
Watch out for the D's, unmarked cars and plainclothes  
Niggas must be crazy, they gone off that yayo  
Maybe smokin' stones, I don't know, I'll be okay, though  
I'm God's solider, devil's apostle, it's harvest time  
You reap what you sew when you cross the line  
It's beyond repair - I am so beyond fear  
That shit is childish, do what you must, niggas beware  
I am - slippery when wet off that 'maldehyde  
Smoke a Dutch full of dust, pull a homo  
Niggas wouldn't side with you if they knew what I know  
I can see you bullshit niggas with my eyes closed  
I've got a deadly rap  
So these jokers wanna ruin my time, I'll handle that

Oh, word? They put a hit out on me?  
Give 'em Hell  
They wanna threaten my wellbeing?  
Give 'em Hell  
And tell Satan throw some heat rocks up  
For the world's most hottest rapper spittin' flames like a volcano
