

# Opium Poppy

Prodigy

Yeah

She need a fix, she can't kick, I got dope dick  
She dope sick, she just wanna hit  
I got a heroine broad, I told her take the cape off  
But keep the heels on and we go real long  
Marathon fuck like we tryna win a gold medal  
We are not normal, no, this is somethin' special  
We got unique lives, they just regular, yo  
This ain't no regular shit, this that premium flow  
Lock ourself in the crib for two months on a sex bend  
Cigarettes, Percocets, weed and some liqs (Uh)  
Rockstar shit (Yeah), but we don't worship 666  
I'm her god, she's my goddess  
My Isis, I'm her Osiris  
They wanna steal our happiness, fuckin' pirates  
She call me opium poppy and just like her daddy  
She gon' leave a nigga slumpin', OD with the ratchy

One time for your mind, we higher than the hippies  
If you know the words, then fuck it, sing it with me  
I got a dope bitch, she my drug, I need her  
She got a dope thug, I'm her drug, she need some  
Two times for your mind, we higher than the hippies  
If you know the words, then fuck it, sing it with me  
I got a dope bitch, she my drug, I need her  
She got a dope thug, I'm her drug, she need some

Like a drug  
You're my drug

I need a fix, I can't kick  
She is dopeness, I just wanna hit  
She got a super dope thug, she told me take the cape off  
But keep my Timbs on and we go real long  
Nonstop fuckin' like we tryna win somethin'  
I come clean, she get me high as fuck, I'm buzzin'  
I can't front, I'm hooked onto her like a junkie  
These songs are my track marks, a needle pokes, cover me  
Cover me, I'm goin' in  
I try to get away from lovin' her, she pull me back again  
Got me scratchin' like a addict, I'm addicted to her  
Fuck it, might as well face it, I'm addicted to love  
I see the New York skyline and think of my bitch  
'Cause the State Building look just like a syringe  
No, no, no, fuck therapy and rehab  
I'm tryna relapse, so swing that, bring it back

One time for your mind, we higher than the hippies (Like a drug)  
If you know the words, then fuck it, sing it with me (You're my drug)  
I got a dope bitch, she my drug, I need her (Like a drug)  
She got a dope thug, I'm her drug, she need some (You're my drug)
