

The Other Side

Prodigy

She not goin' nowhere, I ain't goin' nowhere
We gon' die together, bury us together, woah, yeah
Twenty-one gun salute us at the funeral service
Don't you cry for us, in this life, we served our purpose
Just pour out a little liquor, spillin' non-issues
And play this song a hundred thousand times, we on the other side
Put so much weed up in the sky 'til it reach the other side

Bang-bang, two shots and we out (And we out)
We gon' get the money, yeah, they know what we about (What we about)
Beauty and the beast can't wait for you to run your mouth (Run your mouth)
So you can tie your mama up and grandma in the house
Fuck did you expect? No clue, the fuck you think you playin' with?
Open up your eyes, now look at who you think you playin' with
Bitch, my bitch'll cut your neck and piss down your throat
Really? (Really?) We heard that shit you said up in your songs, heh

She not goin' nowhere, I ain't goin' nowhere
We gon' die together, bury us together, woah, yeah
Twenty-one gun salute us at the funeral service
Don't you cry for us, in this life, we served our purpose
Just pour out a little liquor, spillin' non-issues
And play this song a hundred thousand times, we on the other side
Put so much weed up in the sky 'til it reach the other side (Yeah)

Forever-ever, baby, fuck these people talkin'
Leavin' comments on our pages like they so important
We live a life that they won't never will, yeah, and still
We on the block, these bitches jealous and they mad as hell
You got these niggas jealous of me, they all mad as fuck
I'll pull my strap like at the show, now get your hands up
Bet a nigga empty out his pockets real quick (Real quick)
Take his car keys and that jewelry of his bitch (We gone)

She not goin' nowhere, I ain't goin' nowhere
We gon' die together, bury us together, woah, yeah
Twenty-one gun salute us at the funeral service
Don't you cry for us, in this life, we served our purpose
Just pour out a little liquor, spillin' non-issues
And play this song a hundred thousand times, we on the other side

Put so much weed up in the sky 'til it reach the other side
