They said that we can't smoke, we still did  
Thug life on 'em, my thug wife gorgeous  
And spoiled rotten, she do what she want  
Cautious how you respond to what I share with you  
I don't do much talkin', you lucky if I kick it with you  
You lucky that we even came out  
To this lame life shit, we rather kick it at the beach house (We out)  
1-0-2 in that fast  
We backseat of the truck, driver, push gas  
We push through the city and burn one  
It stay litty in New York City (Ayy)  
Stop, hop out, that be a cool picture  
Then hop out at the store, we need more Swishers (Uh)

Baby, you shine brighter than a diamond (That's right)  
Baby, you shine brighter than all the stars (Better know)  
Baby, you shine brighter than all these lights  
In the darkness (It's all you)  
Baby, we shine brighter than diamonds (Uh-huh)  
Baby, we shine brighter than all the stars (Better know)  
Baby, we shine brighter than all these lights  
In the darkness (Ow, ow)

Outside in black space, on our way to the next place  
I need water with those bottles, they playin' our song  
I can wind on her body all night long  
Cabin stabbin', mi say cabin stabbin'  
We full up our liquor, we gon' fuck up di bed  
2:22 and we bust a dance move  
We get low, get ghost, get food  
Spaghetti scene, Lady and the Tramp  
Yes, she my dog, don't get yourself clapped  
Put a fiery hot one inside you  
Pest control, it's rats in the room  
I don't know what's worse  
The snitch or the niggas that hang with the snitches  
Just me and my bitch  
'Cause these niggas is suckers, they are mice, not men  
3:33, that's a sign from the heavens  
Look up, baby

You shine brighter than a diamond  
Baby, you shine brighter than all the stars (Better know)  
Baby, you shine brighter than all these lights  
In the darkness (Uh-huh)  
We shine brighter than diamonds (Uh-huh)  
We shine brighter than all the stars  
Baby, we shine brighter than all these lights  
In the darkness
