

A Month From Now

Prof

Simple and plain, baby
I like your style baby
Let me take you out, lady
Just say Yes

It is the hunting season
She is my wake up reason
I'll throw the keys and leave 'em
Just say Yes

Wrap my arms around you
Kiss me like you mean it
You're not the same, are you?
You are a different creature

Its four in the morning and I need to hold on
I need to use protection
She's got me figured out
She looks back and kills me when she puts her clothes on
I need to learn my lesson
She's got me figured out
But I don't wanna sit around and wait for her to come around, cause I don't come around

I don't wanna hesitate with ya babe
But I can see ya comin', I'll turn you into nothin'
Ya I don't wanna have to hesitate with ya babe
But I can see it comin', I'll turn you into nothin'
And I don't wan to hurt nobody
I see that goodness in you, but I'm not fuckin' with it
If you told me that a month from now that I would know your name, you would be insane, Yeah

What makes you think that I have never seen a girl like you?
Is it your poked out titties, or that played out low tattoo?
You're nothing but a list to me, misery, Listerine and Maybelline
I need a girlfriend, but you should do fine tonight
Ooh, ooh, ooh
Put me to sleep
Oh, oh, oh oh
Put me to sleep

Its four in the morning and I need to hold on
I need to use protection
She's got me figured out
She looks back and kills me when she puts her clothes on
I need to learn my lesson
She's got me figured out

But I don't wanna sit around and wait for her to come around, cause I don't come around
I don't wanna hesitate with you babe
But I can see ya comin', I'll turn you into nothin'
Ya I don't wanna have to hesitate with ya babe
But I can see it comin', I'll turn you into nothing
And I don't wanna hurt nobody
I see that goodness in you, but I'm not fuckin with it

If you told me that a month from now that I would know your name, you would be insane!

Put me to sleep
Oh, oh, oh oh oh
Put me to sleep
Put me to sleep
Put me to sleep
Come along
So come on over, now, sweetheart
Until someone better comes along
So come on over here sunshine
Until someone better comes along
So come on over here darling
Until someone better comes along
So come on over here chicken
Until someone better comes along
Bitch
Put me to sleep
Until someone better comes along
