

Karma

Prof

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top
Forgive me, give me

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top
Forgive me, give me

I was born on the wrong side of Karma
So naturally I have a lot of punishment to dish out
My position is appointed
So don't get mad at me for giving hell
It is the job that I was born with
Oh this punk here looks too happy
Let's take his bike and shoes so he can't cruise past me
And I'm feeling like shit from my daddy
So tomorrow I'm a fuck with that fat bitch Cassie
She'll cry in front of the mirror when she gets home
Have herself a daughter and make sure she gets pissed on
Similar to why my papa got his wrist blown
Found him up north in the tub with the kids gone

Breath in breath out, be strong

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top
Forgive me, give me

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top
Forgive me, give me

Daddy in the cop car, momma in the summer dress
When will we figure out that we have had enough of this
Nothing is fair so don't expect a refund
Each one is his own learn one teach one
I've learned one taught one
First jumped at the age of 9 on the church steps
Started with my shirt on
Return home alone skinny shirtless
I told him I lost it he told me I was worthless
And if I told you I was angry
Would you believe that the next day I knife with me?
Would you believe that I kept it that way
Until one day I won an argument and took a life with me?
Papa died on a Wednesday
Opened up the shades and sit down and pray
Make sure that sometime this week you whoop a dude's ass
Make them understand how the world got this way

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top

Forgive me, give me

It's how I got this way
Karma's a dangerous game
Cash out when I'm on top
Forgive me, give me
