

Motel

Prof

Why you acting like this motel room ain't good 'nuff to fuck in
?

It's not like we're in love

Ohhh Alright

What's the difference when your daddy says that you shouldn't trust him

And about how I know you like it rough? Aww, no need to play around me

So what I'm a wild boy, everybody knows it

We're well aware the reason you're here

Ohhhhhhhhh oh

I'ma make it worth your time if you walk through that door

A bed is a bed is a bed I'll put it down raw

A used love is the best love mama

Love me like a motel, do me long time

Hey, yea, yea love me like a motel

But leave the curtains open darling

Hey, yea, yea love me like a motel

But treat me right I got some miles on me

You're too pretty to be milling around and making some small talk

Girl, Tell me what you like. And don't you leave out a detail

We get better with time don't you set the alarm clock

You know you'll be wake all night, hey

I ain't looking for a new car. I need a woman that will run red lights

I love it how you're so imperfect, swear to God we match on sight

We get our hands so dirty, it's part of getting by

We will be new together, love me like a motel, fuck me long time

Hey, yea, yea love me like a motel

But leave the curtains open darling

Hey, yea, yea love me like a motel

But treat me right I got some miles on me

We don't have to be lonely

We can get the job done, we don't have to be lonely

Just touch me girl I'm right here, we don't have to be lonely, whoaa
