

# Need Your Love

Prof

Okay  
Stophouse!  
She's bangin' like a Ron G Tape

Walk through the door, tear your shirt off  
Bite your bottom lip, surf's up  
Slide your hand down my chest  
Push me on the couch hard but let me kiss your neck  
Wrap your legs around my waist  
Grab a... bottle of Jameson and put it in my face  
Along with the nipple chaser  
I dig my face right in it like an ostrich  
You so soft, I so hard  
You so deep, I go so far  
You so sweet, I so sour  
I rocketman, I find your star  
Coordinates, five percent to the left  
Speed slow mo, so hold my steps  
I hold firm and send you over  
Your legs quake, you bite my shoulder

Oh girl, I need your love  
Please stay with me tonight  
I need your love  
Hurry up and get me  
Hurry up and get me  
Hurry up

Come on girl, can't you see my good foot?  
I don't wanna fuck you just because you look good  
I think you're real smart, I see you got some brain  
I don't fuck with them chickens, them chickens all the same  
You want a back rub, in the bath tub?  
Want the candles lit, want that ass scrubbed?  
Take a look around girl, everything is paid for  
Scoot to the bed, I'll show you what that thing is made for  
I got a queen sized bed, got a king sized appetite  
Plus I got a king sized (ha, ha)  
I got a pretty big bedroom, with some good headroom, and you got to really ride (ha)

Oh girl, I need your love  
Please stay with me tonight  
I need your love  
Hurry up and get me  
Hurry up and get me  
Hurry up

Bet your bottom dollar that I'll come and make you feel good  
I can fill you up to the guts like a meal should  
And you be lookin' hungry, we could use a rubber, I could use you like a bungee  
Looking like some animals, rollin' round the sheets I eat like a cannibal  
Hold up girl, it's the main course  
Giving you everything that you've ever came for  
I don't think that you're aware how much I really need you tonight  
You were meant to be with me

I know you'll forget all of the shit you've been through, baby let's ride  
Let's get a dub, let's get a room, let's get a bed  
When the night time comes, turn to love  
When the night time comes, it's me and you and sex

Oh girl  
I need your love  
Please stay with me tonight  
I need your love  
Hurry up and get me  
Hurry up and get me  
Hurry up

Oooh  
Uh, cookie?  
Uh
