

# Outside Baby

Prof

Cabin fever  
Ooh, she got cabin fever

I got an outside baby  
She don't watch her mouth, she can't keep it down  
You can hear it outside, baby, yeah  
I got an outside baby, yeah  
I got an outside baby  
She don't watch her mouth, she can't keep it down  
You can hear it outside, baby, yeah  
Got an outside baby

Uh, yeah, uh  
She loud as hell in bed  
Sound like she tearing me to pieces  
And my neighbors don't like me  
Ooh, they keep telling me I need Jesus  
It's the summertime and we don't have air  
Got the windows down and the bodies bare  
We knocking, knocking, knocking, knocking boots  
Hit her spot and she get louder than a cockatoo  
Huh, I think you 'bout to get the cops called  
But my customer service is truly paramount  
The choice is we could keep it chill or we could air it out  
Ah shit, I'm 'bout to fuck you like an animal

I got an outside baby  
She don't watch her mouth, she can't keep it down  
You can hear it outside, baby  
I got an outside baby, yeah  
I got an outside baby  
She don't watch her mouth, she can't keep it down  
You can hear it outside, baby  
I got an outside baby, hey

She yells and she screams like you wouldn't believe  
I try to let her know the world is asleep (Oh my God, oh my God)  
We toss and we turn through the night 'cause we free  
Look at you  
Swear to God, you asked for it, asked for it  
You make me wanna fuck you like an animal, hey

I got an outside baby  
She don't watch her mouth, can't keep it down  
You can hear it outside, baby, huh  
I got an outside baby  
I got an outside baby  
She don't watch her mouth, can't keep it down  
You can hear it outside, baby  
You can hear it outside

Got her screaming through the night like hey  
Screaming like hey (Oh my God)  
Got her screaming all night  
The things I'd do to you, unspeakable, hey, uh  
The way she screams at me, can't keep it down, oh  
Got her screaming all night

Hey, hey, hey, ooh ooh ooh  
Shut your mouth, oh

From the front to the back  
In the house or a shack  
On the couch, in the sack  
If you're white, if you're black  
Make some noise now  
Come on, come on  
Put your mack down  
Come on, come on  
If you're broke, if you're paid  
If you straight, if you gay  
In the sun or the shade  
If you fucking every day  
Make some noise now  
Come on, come on  
Put your mack down  
Come on, come on  
From the front to the back  
In the house or a shack  
On the couch, in the sack  
If you're white, if you're black  
Make some noise now  
Come on, come on  
Put your mack down  
Come on, come on  
If you're broke, if you're paid  
If you straight, if you gay  
In the sun or the shade  
If you fucking every day  
Make some noise now  
Come on, come on  
Put your mack down  
Come on, come on
