

Rocket Man

Prof

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Give me a match and I'll light that fire
Little bit of gasoline and I'll touch that star
Battle galactic, [?]
Enterprise is bound to go higher
Up up and away
Ain't nobody handing out shit but a lock and chain
When you're locked and loaded like a [?]
I got this game in a box of things

But as for now, man, I'm stuck on this earth
Build my pad as a vessel, Imma make this shit work

Bottle up dreams, swallow up beams
Lightning strikes clean
So when this shit hits I'll be ready for it with a pair of metal jeans
Triple beam kerosene dreams
Barely seen fiends
Carelessly embarrassed [?] parents clarence has a dream

High in the clouds
[?] right to the mouth
Can't live life in a hall
I'm gonna take off thank God take off right now

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Night owl style
I'm a wild child
Eat air, shit clouds
[?] what I'm talking bout is POW POW
Cut off the top of the cieling
Got a hole in my house this a double feeling
Stuck in the stars
Put enough of my touch of luck anyway
Chuck buckle up man I think I'm teething

But as for now, man, I'm stuck on this earth
Build my mike as a vessel, Imma make this shit work

I'm out of this world
Can't nobody compare me to these earls
Carelessly, I be thorough
Think about the next stop guess what pit stop I refill
I keep ill, I eat skills
I climb mountains, I need thrills
Keep a couple dollar bills under my collar
So when I pop know that I don't mean pills
Oh be real
Homie, chill
I only kill to open deals
I take off and leave all
I can't hear y'all like Evander Holyfield

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Up up and away, take me away
Light speed on the game
To know where I come from is to
Know that it's all the same

Up up and away
(Rocket man, rocket man)
Up up and away
(Pack my bags, pack my bags)
Up up and away
(Rocket man, rocket man)
Up up and away
(Pack my bags, pack my bags)

Let's go, let's go
(Light speed on the game)
All [?]
(Know that it's all the same)
Let's go, let's go
(Light speed on the game)
All [?]
(Know that it's all the same)

Up up and away
(Rocket man, rocket man)
Up up and away
(Pack my bags, pack my bags)
Up up and away
(Rocket man, rocket man)
Up up and away
(Pack my bags, pack my bags)
