

Terminator

Prof

Aye, just be easy man, I think I forgot how good I was
Push and shove, when it comes down to that, bitch, I'll fuck you
up!

Uppercut; take you to back of the shed and then I'll cut you up
Into little pieces like Reeses, man that shit'lll hush you up
Just when they get to thinking that I am a party-boy

I let my hands fly, sumthin' like an Army boy

I bring the circus, call me Prof: The Carny Boy

Arm me boy, calling all of y'all to try to find me boy!

Bitch, you can't fuck with this! Ever seen nuts like this?

Ever seen 20 below, make a rapper's skin as tough as this?

I've had enough of this, emcees is Snuffleupagus

And when those rappers meet me, they lookin' like they kind of
scared

Kind of like I'll pick them up, and throw them down a flight of
stairs

Rappin' just like a mad-man, damn man, aye, that's all I know

Buckin' out, handin' out eye-protection before my shows

And me and Rahz nothing but a pair of assholes

I'm the flyest of all time: Pterodactyl

You're a trashy lawn tire

I'm literally on fire: bon fire

You're in the seats. I am the umpire

Hot sex, gun fights, Uzis, Jacuzzis

Jumpin' outta' helicopters, keepin beer in koozies

Seven-thousand volts, keep your finger on my pulse

I'll be swimmin' in them floats, bitch, believe I'm on a boat,
yeah

Swimmin' through your city limits, in minutes, I'm eating spina
ch

Cock-eye, pop-eye, soft guy, I think he's finished

I'm sick, best believe it's un-treatable

Even though, you ride with me, I'll throw you out the vehicle

You're livin' for your tax-cut, I'm livin' like a Mack Truck

Swerving through the lanes, face down, trick, ass up!

There is only one Prof, accept no impersonators

I'll show up and serve them later
