

...Hate...

Profane Omen

Laid down my bitter heart, down on my grave
Northwind the witness of, what I became
Out of the faith battered up, and left to bleed
Reborn of hate and anger, torn down to SUICIDE

Chorus:

I walked with my fears disgraced by years I bent down
I left myself in blessed misery
You murdered my virginity, raped the daze in me
(That's) why, I'm falling on this gap of misery

I never had a chance to, say goodbye
I went away and started my SUICIDE
So torn apart, dead breeze tonight
Slayed in blood, I'm drowned in life
So tired of begging down on my knees.

Chorus

Shame, fear, lies filled with all my cris
(but) no more tears come out my eyes.

love - ANGER
free to be - GET IN THESE CHAINS
life - DIE
burnt my dreams.

Chorus
