

## These Days

Professional Murder Music

Watching your face  
I can't believe I'm still here  
why did these days  
bleed like I said  
do you want to take  
a long hard look back  
to know if I feel right now  
it's everything

we're the life you dreamt such a perfect day  
I can almost  
see outside this place  
that I left alone  
too long ago  
I don't like the scars how they slip away  
now I'm taking everything you have

why can't you go away  
I can't stand your face right here now  
why can't you go away

is this the only place  
I know I'll hate to find out  
I could never think of this end  
do you want to tell me  
things I don't know  
before I start the burning inside

we're the life you dreamt such a perfect day  
I can almost  
see outside this place  
that I left alone  
too long ago  
I don't like the scars how they slip away  
now I'm taking everything you have  
why can't you go away  
I can't stand your face right here now  
why can't you go away
