

# Trunk Shit

Professor Green

Put in the power Pushing for mine  
You can try and 8 ball me  
Rappers talk alota shit but they don't wanna back it up  
Because when it comes down to it they know they ain't bad enough  
The cockiest cockney from east  
I'm a beast over beats  
I eat up rappers  
Get street - beat up rappers  
I'm raw with the tightest flows  
You got freestyles? I got 4 or 5 of those  
Best of the best  
I'm clever with words  
They couldn't bet on my worst  
You're all jokers with punter rhymes  
Your punches are I don't sound like Slim  
I got signed by Mike but I don't sound like Him

I got the trunk shit  
Play my CD and bump it  
I'm PG and I run shit  
How dare you run lips  
And what how quick I run this  
I'm not to be fucked with

I could be Charged off a knee  
I could still bury these rappers in half of a key  
Thats two bars  
Buddy your new sound weak  
I will succeed like a budgie with n o teeth  
My old bars make your new sound sound dated  
In fact my old bars make you new sound ancient  
So run and hide before you get mummified and wrapped up quick  
Your man suck dick  
You lick balls for a living  
I lick 8 balls for a living  
I'm cool because I live it  
My cockney swagger could not be badder  
For east and polite  
You could not be madder  
From now til the day they lock me in the slammer  
You know I bangers up  
I got the trunk shit  
Play my CD and bump it  
I'm PG and I run shit  
How dare you run lips  
And what how quick I run this  
I'm not to be fucked with

I don't think I don't need nothing  
Dogs are your companions  
Cats only come back when they need something  
I'm a shopper I know what cash is  
Keep notes in 10 folds elastic bandages  
Balls in my reefa  
Walking through the streets of East looking like I need to pull my jeans up  
I'll be sagging my jeans in my 30's  
I'm dirty I'll be bagging green till they hurl me  
Breath ingest Trying to br eath for stress  
I'll sleep when I'm dead  
Dragging on a big spliff, I ain't high  
A real man talk softly but be carries a big stick  
Fuck life I'm getting a .9 to get you  
I'm going to where I'm trying to get to

High speed so you best move

I got the trunk shit  
Play my CD and bump it  
I'm PG and I run shit  
How dare you run lips  
And what how quick I run this  
I'm not to be fucked with
