

# Take Da Charge

## Project Pat

She's a freaky young gal, a bi-sexual  
But a hustler though and will sell some snow  
Wit dat' juicy fat thang I can't let you go  
What she doing mane wit' all that I bet you know?  
Baby girl take dem trips down to Mexico  
Get dem birds and dat herbs and will see her doe  
Clock ticks like her brain when she sceme a plot  
Set playas up for change and receive alot  
My thang staying on hard, make that coochie pop  
Suck me up 'til she get the last goosy drop  
The shake club never had much to offer her  
A dyke broad get none, 'cause it's boss wit' her  
And it's boss wit' me why you be asking when twerking  
She don't claim pimp but she'll have ya' working  
Aw, it's for certain she been there and did dat'  
Could be corporate lawyer or a hood rat

She's a ghetto type broad and her life was hard  
Catching me wit' the dope and she'll take the charge  
She's a ghetto type broad and her life was hard  
Catching me wit' the dope and she'll take the charge  
She's a ghetto type broad and her life was hard  
Catching me wit' the dope and she'll take the charge  
She's a ghetto type broad and her life was hard  
Catching me wit' the dope and she'll take the charge

Razor blade in ya mouth green stuff in ya' stuff  
Philly blunts in ya' purse but that ain't enough  
Turning liquor bottles up wit' cha' mane as we dip  
Turn right turn left each corner take a sip  
Say wassup to the big pussy click in Hine Park  
Learna and Leonara and those who got hard  
Staying down wit' your dogs till they let your dogs go  
Jailhouse like a dog house dog y'ain't know  
Everybody need somebody real on their team  
No letters, no visitation make you mean  
Make you wanna think everybody left you for dead  
And ya' gal dat' you love out there giving head  
What the past don't be thinking 'bout the things that I did  
I need money for some commissary can ya' dig  
Taking chances with us so we can live

She's a ghetto type broad and her life was hard  
Catching me wit' the dope and she'll take the charge
