The Liar

Project Pitchfork

Stay where you are
Don't do anything
Go to work
You can't stop the war
Stay in the place where you live
Be happy with what you've got
What you want
Isn't what you get
Don't search for answers
Don't think about yourself
You are too small

Don't think about reasons
Watch your TV
Don't think about yourself
Just believe in me
Your head is only there
To wear your hair
You're marching proud
With the crowd

Don't think about reasons
Don't think about yourself
Watch your TV
Just believe in me
Your head is only there
To wear your hair
You're marching proud
With the crowd

You're marching proud
With the crowd
Don't think about direction
You are only a reflection
You've never been more
You've never been less
You've never been more
You are only a big mess

Stay calm, don't disturb
Stay calm, go to work
You're only a cog-wheel in a big machine
