Dead Of Winter

Promise of Redemption

And so they say
The sun's a perfect shade of blue
And in the dead of winter
My are too cold to move
And it's only you
You can cure the frostbite on my heart
It's so damn hard
It's so hard

To move on cause when the walls turn thin
The fist goes through with these?
From the anger and the predicate
You can bring me to my knees
And it's all about when you tell me how
It will work out right
And i'll say to myself
Shane, oh, hello
I wish I met her sooner than that night

All I have, all I have is one thing on my mind
All I have, all I have is one thing on my mind

And it's been said
That everything you hold on to
Slips through your hands
And into the wind
Just blow away so simple
I won't let this one wrest me

He always comes to me
In my dreams
I will sing this song to you
It will prevent you from leaving
So please, just don't leave me
With your heart of gold
You were the treasure
I somehow stole
And I'm not giving it back
I'll never give it back
You'll have to take me alive

It's not hard to say "I love you"
When you're far across the states
And now I know that you're the only one who makes my day
So wait for me to fly to you
And I'll tell you what I see
The truth I told is the truth I know is that you are what I need

All I have, all I have is one thing on my mind
All I have, all I have is one thing on my mind
All I have, all I have is one thing on my mind
All I have, all I have is one thing on my mind
