

However It May End

Prong

Oh, it's looking like a lost cause beyond today
It's looking like a lost cause beyond today

A code of confidence setting a precedent
Stay in a present state of mind
With no permanence, no matter of consequence
There's no future to rely

Designs that confine pressure til the end
All eyes will define however it may end

Oh, it's looking like a lost cause beyond today
It's looking like a lost cause beyond today

Have no evidence, acting in my defence
Of how the forces will align
While not in the present tense, becoming evident
Of an eventual demise

Designs that confine pressure till the end
All eyes will define however it may end

However it may end
Pressure til the end
Never to condemn
Forever to defend

However it may end

More scars appear on my face
Causing more scars in the future state
A lost cause of the past
Looking like a lost cause in the end

Designs that confine pressure til the end
All eyes will define however it may end

Designs that confine
All eyes will define however it may end

Oh, it's looking like a lost cause beyond today
