

# Interbeing

Prong

Global ethics  
Ignored on earth  
The chasing of wealth and pleasures  
Cause world despair  
Poisons and toxins  
What we're breathing  
False ideas and attachments  
That we believe

Mindful consumption  
Nourish the seeds  
Pure existence  
Interbeing  
With no indifference  
End the suffering  
Pure existence  
Interbeing

The nutriment of consciousness  
Patient and persistent minding all your steps  
With all the tension to relieve  
Causes and conditions rigidly  
In an irritant environment  
Conjure and consideration to reflect  
Not many things for us to reach  
A good amount of certainty, simplicity

Total wreckage  
It will return  
The racing to wrong endeavors  
That's what's preferred  
That we're facing  
Shadowy schemes run rampant  
We're under siege

From any attachment  
With no indifference  
May I be solid and free  
Nourish the seeds  
Be safe from injury  
Free from any entrapment  
End the suffering

Mindful consumption  
Nourish the seeds  
Pure existence  
Interbeing  
With no indifference  
End the suffering  
Pure existence  
Interbeing
