Irrelevant Thoughts

Look, listen, learn

Listen All I've been taught All that confused me Irrelevant thoughts All just to use me

For society's will Denied my own person But there's still a will For my very own lesson

Now I know nothing That my mind can't create Now they'll know something Of the mind they create

Look, listen, learn It's time they learn ...

Rite to my will Rite to my impulse Territorial rites Right to your downfall

Look, listen Look, listen, learn Prong
