

## Non-Existence

Prong

Walk the extra mile with my hands tied  
Going through trials, going out of my mind  
Take a bullet for you  
Take a bullet, it's true  
Another cross to bear  
Keep on climbing those stairs  
Always saying silent prayers  
Has my vision impaired my view?  
Impaired my view  
Impaired my view

It's a basic truth  
Got to put it to use  
It's better to be living than to be of no use  
Impair my view  
Got nothing to lose  
Not much more to living, got to see it through

Running out of time, jump the turnstile  
Trying to find a guide, trying to find a new sign  
Some kind of proof  
Got something to prove  
Another thing to share, never unfair  
Time to be aware, start breathing the air  
Gotta change my view  
Gonna change my view  
It changed my view

It's a basic truth  
Got to put it to use  
It's better to be living than to be of no use  
Impair my view  
Got nothing to lose  
Not much more to living, got to see it through

A basic truth  
A basic truth  
Not much more to living, got to see it through  
It's a basic truth, got to put it to use  
Put it to use

It's a basic truth  
Got to put it to use  
It's better to be living than to be of no use  
Impair my view  
Got nothing to lose  
Not much more to living, got to see it through

It's a basic truth  
It's a basic truth
