Propaganda

I heard the latest news  
Earth on collision course  
Arches are build in vain  
Here comes torrential rain

Facing the tidal wave  
There is no time to waste  
No riches worth saving  
We're blinded by light  
There's no place to hide

Tipping point  
World out of joint  
Tidal wave  
Hoping for saving grace  
Tipping point  
Collision course  
A deadly race  
Got no time to waste

Where are we drifting to  
Is there a saving shore  
Is there a guiding light  
A hope in the darkest night

This is the final pledge  
We're stepping to the edge  
Our time is running out  
Or is, is there a doubt

Put in a deadly race  
Hoping for saving grace  
There's nothing remaining  
We leave all behind  
From time out of mind

Tipping point  
World out of joint  
Tidal wave  
Hoping for saving grace  
Tipping point  
Collision course  
A deadly race  
Got no time to waste

Where are we drifting to  
Is there a saving shore  
Is there a guiding light  
A hope in the darkest night
