I already knew this girl was gon' be special  
From the jump  
She been amazin' me since like ha, three to four months

In case we never speak again, I profess my love  
When I was down, God sent you made from up above  
At a time life was dark and I was tryna suppress with drugs  
And then you came among and I ain't know what depression was (A

We live in different houses now, they had me stressin' tough (D

And FaceTime can't never replace your touch  
And no daddy in the house, I know about that all too much, man  
My mama held it down for real, your granny was a soldier  
Raised kings all along, it made me more as I get older  
Back when rap was just a dream and wasn't nobody payin' me noti  
ce  
She was rappin' all my songs had me feelin' like I'm Hova  
Your uncle used to beat me up, oh, that made me colder  
That's my nigga to the grave, sometimes I wish that we was clos  
er (My real brother)  
Some folks ain't around no more and I don't want no closure  
Listen to me, never walk back into somethin' once it's over  
Your sister's got my heart too, it's whatever for them girls (W  
hatever)  
They told me to be a man before you came into this world (Yeah)  
And as you grow, the sun won't always shine and life gon' test  
you  
But the rain don't last forever and you gon' shine in any weath  
er  
I hope you ready to be a star, it's comin' 'cause you special  
And if a nigga break your heart, your uncles already know to st  
retch him (For real)  
I gave this game my heart and I'ma leave that all to you  
Playin' back all my songs like, "Damn, my daddy was the truth (H  
m)  
Daddy was the truth (Truth), where's his crown?" (Yeah)  
Damn, it's on my heart, I ain't have to write this down  
Rappin' 'bout you make me smile (Make me smile)  
Rappin' 'bout you make me smile (Make me smile)  
This 'posed to be my last letter I'm writin' now  
Still I'm lookin' stupid with a big smile (Big smile)  
It's crazy 'cause rappin' 'bout you make me smile (Make me smil  
e)  
Rappin' 'bout you make me smile (Make me smile)  
I ain't even write this down
