

Double Cup

Propain

Yeah
Turn 'em up
(X.O. think he all that)
Look

Put it in slow, Mary J. Blige on the speakers today 'cause I'm ballin'
' with bae
I gotta get it in full, it seem like the more that we makin', the more
that they hate
Know that they see me, see, I've been a player since niggas was talkin'
'bout smokin' on Haze
But don't get it twisted, a lion come out in this bitch if you thinkin'
of openin' this cage
But back to the stallion though, my bitch is flawless, Dior from the
toe to the shades
She want me strip her and stroke her to Maze, I get her high, put that
dope in her veins
She had some problems before, her last nigga wasn't on nothin', but P
ro ain't the same
I'll have you up in the clouds, we double cup, we go together like Kobe
and Wayne
Yeah, we go together like Kobe and rings
Speakin' of diamonds, the shit that I'm rockin' is dancin' like crazy
, it's lowkey insane
I'm from a city where candy paint drippin' and purple shit legal, drive
slowly and swing
And women are badder than Dennis the Menace and thicker than tension
with police and gangs

Chasin' this money for real, baby, you know ain't no stoppin', we grind
'til the sun is up
The only way that I know, the life of a hustler, we never feel like we
done done enough
She like the way that I move, shorty the baddest, she number one, there
ain't no runner-ups
I got her fiendin' a G, locked in and stuck in together, I swear we like
double cups
Yeah, we runnin' this game, we makin' 'em huddle up
Live by the motto to go get the bag and when we get that, you know that
we double up
Shorty the baddest for real, her body on crazy, we hoppin' out, fuckin'
the summer up
She got me fiendin' her, man, locked in and stuck in together, I swear
we like double cups

Keep my head cloudy just to take away the stress
Four poured in that double cup, man, this tastes the best
Piece and chain on my chest, every day, stay fresh
Used to be up in them 'jects, now I'm leanin' on them jets
You stayed down, I'm impressed, lot of women would've folded
But you got a good nigga, I ain't flawless, but she know it
I make up for my downs, I'm the one she keep around

I know how to fix your frowns, let's vacation out of town
You seem like you need a break, I feel like you deserve it
Long as you fuckin' with me, I'ma make you smile on purpose
I respect your time and service, teamwork make dreams
No scrubs on my team, only queens laid with kings, huh?
