

## Atrocities

Protector

You see what I mean with totally pain?  
They're not worth to breathe the same air like us  
Revenge! Crush the enemy  
Kill them slow, burn the scum  
The streets are filled with entrials  
Take scalps and cocks as trophys  
Love... Mercy... are just two vidiculous words  
Show them your hate: disgust - abhorrence  
Atrocities... What a world?  
Realize the real warfare  
You can't escape, we are everywhere  
Wake up and see: a gun in your face  
Stomp out their teeth, let it crack!  
Rape their women, slay them  
Let them drown in a sea of blood  
Over and over again: no mercy!  
You see what I mean, with totally pain?  
They'll never breathe again the same air like us
