So I just waa relax, roll up a spliff and send it straight to m
y head yeah
Smoke me marijuana until me eyes turn red, yeah
And try to catch a vibe
Sweet, sweet vibe
So please don't you kill my high
Kill my high

Right now me dehpon a level I wish that you coulda get to
Yeah I'm up in the clouds, come with me and I'll take you
Sometime life is a pressure and me need some release
I'm hoping this is the song that will put you at ease
'Cause we need some of these, you know, moments of peace
You ever feel so alone in a room full of people
So I spark up these trees whenever I have a reason
Physically me deh deh but mentally know me leave you

So I roll up no seeds and sativa gets me so lit
Then I inhale and exhale, try to let go of my shiii
