Falling
Falling
Falling
Falling, falling

Seeing that we now know
That what they say ain't so
Will you stay or go
Now when freedom calling, calling
While the camera show
The lies they hid before
One thing is for sure
Now the kingdom falling, falling

Ey
Well you can act like you no see
Until everybody free
Well nobody really free then
Today a you, tomorrow me
But we still cannot agree
While mother nature get a beating
Is there no limit to the greed
Down to the air weh we a breathe
Now the water them receding
Then spirituality deplete
Economically defeated
The cycle just repeat then

Seeing that we now know
That what they say ain't so
Will you stay or go
Now when freedom calling, calling
While the camera show
The lies they hid before
One thing is for sure
Now the kingdom falling, falling

Hollywood pack up with a bag of waste man
Actress dem come out...
Hold on, hold on, gimme again, gimme again
The whole world pack up with a bag of waste man
Woman everywhere in every occupation
A find themselves inna some situation
Man a abuse them position with insinuation
Intimidation to the most valuable being inna creation
Make me say it blatant
Empower the woman
You empower the nation
No longer shall we act mistaken
Awaken

Seeing that we now know
That what they say ain't so
Will you stay or go
Now when freedom calling, calling
While the camera show
The lies they hid before

One thing is for sure
Now the kingdom falling, falling

Me say the whole world a war over money
Religion and politics and still the people hungry
Leaders deh pon twitter feed them ego like a dummy
Come in like a comedy but nothing deya funny
Land of the free and the home of the brave
Who consider owning other people as the good old days
Now I hear they really want fi make it great again
Acting like it was so great back then, oh man

Seeing that we now know
That what they say ain't so
Will you stay or go
Now when freedom calling, calling
While the camera show
The lies they hid before
One thing is for sure
Now the kingdom falling, falling
I say that falling, falling
Now the kingdom falling, falling
I say that falling, falling
Now the kingdom falling, falling
I say that falling, falling
Now the kingdom falling
