Protoje

I see this life I living, I look pon it like, "Oh my"
Time fly, yow ten year, drop arguments in '09
Fly my family to the Grammy, oh God, them 'member me trying
That's a part of me I cannot delete, keep that shit in my mind
I was sitting outside the studio waiting just to get voiced
Them would send me home, come back everyday, never even think twice
That was me in 2008 you see, nobody never did a fly the gate for me
Nobody never did a try make fi we, so me take time and me guide it carefully
These the things I been thinking of, please nuh bring no damn feelings up
Love my dad, I don't see him enough, we had reasonings while steaming up
Whether famine or feast the same, see the sun, you goin' see the rain
Throughout all of this we remain

I hold my order, give my praises
Oh Jah, deliver me through these days
Sometimes really hard to go and face this
Oh this life can truly be amazing, amazing

I hold my order, give my praises
Oh Jah, deliver me through these days
Sometimes really hard to go and face this
Oh this life can truly be amazing, amazing

Ey, check the vibes we a bring
Sev and Lila dem asing
No intruder to the thing
Lion of Judah pon the ring
King David with a sling
A no ding, a stone a fling
Song a sing so phone a ring
Them gone back pon tour again?
How much money them a spend
Them and Shenseaa a friend
Man deya a try ascend
All knowledge get comprehend
I've been feeling like Romeich
Making 5 or 6 a week
Earning even when I sleep
In the hills, I'm out of reach
Choosing how I spend my time
It's completely by design
They don't even see the trying
All themsee is dollar sign
All I make is sacrifice
Fi get the prize you pay the price
When I look into my life

I hold my order, give my praises
Oh Jah, deliver me through these days
Sometimes really hard to go and face this
Oh this life can truly be amazing, amazing

I hold my order, give my praises
Oh Jah, deliver me through these days
Sometimes really hard to go and face this
Oh this life can truly be amazing, amazing
