

Summertime

Protoje

Seasons change
But our love stays the same

This is a vibe
Our love is like summer time
Healing my mind
Our love is like summertime
Ooh ooh ooh ooh
Feels so good to me
This is a vibe
Our love is like summer time

You are hot like summer
Warm my heart, I don't need no other
I love spending time with you
Like the sunlight, you see me through
It's a Holiday
When we love this way
And we're just getting started
'Cause this

This is a vibe
Our love is like summer time
Healing my mind
Our love is like summertime
Ooh ooh ooh ooh
Feels so good to me
This is a vibe
Our love is like summer time

Fireflies lighting our way as we walk
Words floating in the summer
Breeze when we talk
What we have is endless
Take away all my stress
It's so familiar and still so brand new
Every day with you feels like deja vu
Like we've always known it
Loved you before we met

This is a vibe
Our love is like summer time
Healing my mind
Our love is like summertime
Ooh ooh ooh ooh
Feels so good to me
This is a vibe
Our love is like summer time

Kiss me always
From sunlight to moon rays
January to December
Loving you is summer forever
Stars shine on us
Keeping our secrets
January to December
Loving you is summer forever

This is a vibe
Our love is like summer time
Healing my mind
Our love is like summertime
Ooh ooh ooh ooh
Feels so good to me
This is a vibe
Our love is like summer time
