And we're not playing 'round, the day is come
So sound the alarm
And yeah, we're breaking down, oh, yes, tearing down
So calm in the storm
And yeah, we're reigning now, it raining down

Dem have di red E-Y-E when dem a pree mi
When she see the G63
Same words, different flow, yo, him gifted, eh
Back to the point at hand, dem have dem hand a point at me
Artist with no styles comin' at me
Knowin' that they have to be joking
So these words have to be spoken
Open up your brain, make it soak in
Pens, pencils a mi utensils
When I eat up beats with lyrical heat
And they tend to not know what lyrical means
My rhyme stalks just grow from spiritual beans
And stalks of green help me supply miracles really
These songs are testaments to all the things that I feel
So if you with me, all I really ask is believe
That I would never let you down in your moment of need, yuh see mi
