

Come & See

Protomartyr

Have you heard the bad news?
We've been saved by both coasts
A bag of snakes with heads of gas
The complicated haircuts ride in on a white ass

And I'll try to live defeated
Come and see the good in everything
Outside, animals sound
Come and see the open ending

Let it snow, and freeze them in their minds
Count their money with broken arms
Come as friends, are you ready to be capitalized?
In this town, in this hole

And I'll try to live defeated
Come and see the good in everything
Outside, animals sound
Come and see them lead us onto heaven

And I'll try to live defeated
Come and see the good in everything
Outside, animals sound
Come and see
