

(Don't You) Call Me Out My Name

Protomartyr

When you call me on the phone and you say my name
You'll find out I am not your friend
If you call me up and do it again
You'll find out four fists meet their end

I can't lie

When you call me out my name and you say it again
You'll find out I am not the same

I can't lie

I get low

Then you call my name and do it again
Then you call my name and do it again
You'll find out four fists meet their end

I can't lie

I get low

I get low

When you call me on the phone and you say my name
You'll find I am not the same
You'll find out I am not your friend

I can't lie

I get low

I can't lie

I get low

I get low

I get low

I get low

I get low
