

In My Sphere

Protomartyr

In my sphere
Dialogue
Of precious
Silver and gold
In my sphere
All styles
Welcomed
Inside, no fear

Don't trip, fall in evil
Don't trip, fall in evil
In my sphere

In my sphere
Outside
Walls are
Inside nowhere

Don't trip, fall in evil
Don't trip, fall in evil
In my sphere
In my sphere

In my sphere
We're all friends here
We exist outside the law
So won't you come along?
In my sphere
We are vicious
We are sissies
About the concept of love
In my sphere
In my sphere
The time's wrong
You can chase me out the door
I come in through the roof
In my sphere
No judges
We aren't judges
But we appeal to another law
In my sphere
In my sphere
Outside desert
Inside fallow
I hear women
I hear women
As they fight over a bottle of wine
I fear

There's no passion
There's no passion
There's no passion
No passion
All technique
It's all technique
It's all technique
It's all technique

There's no passion
There's no passion
There's no passion
No passion
It's all technique
It's all technique
It's all technique
It's all technique
