

## Windsor Hum

Protomartyr

The sound that you're hearing across the river  
Saying "everything's fine"  
The sound across the river into your brain pan  
Saying "everything's fine"  
The sound going across the ocean  
Saying "everything's fine"

It says want, want, want, want, want what you are given  
Need need need need need what you'll never have  
It says want, want, want, want, want what you are given  
Need need need need need what you'll never have  
Never have, and never will, never will

The old Windsor humming  
Across the river  
From the U.S. of A  
Saying, "everything's fine"

It says want, want, want, want, want what you are given  
Need, need, need, need, need what you'll never have  
Never have, and never will

The Windsor hum  
The Windsor humming  
The winds are humming
