

You're With A Creep

Protomartyr

Pure water's fine and sterile this I heard to be true
But even pure water gets flushed down with it too
See you walking down the street I see you at the show
And everybody's gotta a secret you all know

You're with a creep, you're with a creep
You're with a creep, you're with a creep
Pure water's fine and sterile this I know to be true
But even pure water gets flushed down with it too

You're with a creep, quit sleeping with ex's you're with a creep
p
Doesn't matter who you're with a creep, you're with a creep
You're with a creep, you're with a creep
You're with a creep, you're with a creep

Pure water's fine and sterile this I heard to be true
But even pure water gets flushed down with it too

You're with a creep, you're with a creep
You're with a creep, you're with a creep
Don't blame it on my pride, you're with a creep
Give it a rest, you're with a creep
You're with a creep, creep, creep
You're with a creep
