

Spell Strike

Provoker

You should know by now
And know I only want your love
I know why that's a lot to ask of anyone
Just to be the only one

Two face both look alike
Looking down on me never seem to like
My little evil sprite
Spell strike deplete my life

I should know by now, I can't lie
I still want your love
Don't know why
It's a feeling I can't fully own
Cause I know I'm not alone

I let you take what I want
Now when I leave I can't leave you alone
Girl I wanna know
What I already know

My little evil sprite
My love for you alone
I've been waiting all day and all night
Since you came into view
Now I can't look away
I felt it go through bone
Spell strike deplete my life
You let me go, I won't

I let you take what you want
Now when you leave I can't leave it alone
Girl I wanna know
What I already know

Forcibly spellbound
In your eyes
You might be void of
Feelings I fear I haven't felt for anyone
You might be the only one

Might be the only one for me
The only one for me
Might be the only one for me
The only one

My little evil sprite
My love for you alone
I've been waiting all day and all night
Since you came into view
Now I can't look away
I felt it go through bone
Spell strike deplete my life
You let me go, I won't
