

## Spring Bride

Provoker

Spring bride and a devotee man  
Spilling their blood in a one bed  
Stuck in my head feeding all my intent  
I'm delivering death, ooh-oh-oh

They broke in through the attic  
Had something to look after  
They wanted to see my reaction  
Now the memory's everlasting  
(Huh, huh)

It was you and me  
What they took from me  
Family tree  
Bride to be  
Now I'm sneaking up  
Load the gun  
Like you did to me  
Reenacted

Following, outta sight  
Eyes glowing red In the dead of night  
Halloween, holo sight  
Eyes glowing red in the dead of night
