Provoker

Never really good I know
Always on my brain and It shows
I don't want say what I know
I don't want to say what I know

I thought that was it
Take it all back
Went ahead and forgave
Then you go do that
And right now I hate ya
You know I'll be back
That shit had me so sick

I just want a better lie
I can't really make you
Give it to me back
Shut the fuck up sh sh
Can't you tell a better lie

Never really good I know
Always on my brain and It shows
I don't want say what I know
I don't want to say what I know

Take it all back
Went ahead and forgave
