

Brightside

Próxima Parada

I've been down for so damn long
Now it's too hard to get back up
I don't want you thinking I'm not trying
On this road too long to give it up

Given the right way, I choose the wrong
Given the short way, I always choose the long
Given the bad way, You know I wanna take that one
But I keep on moving on, I keep on moving on

It's alright to look on the brightside - you're telling me
I've waited so long to look on the brightside
Now I can see

Felt that light come through the cracks
As it stung me in my eyes
I keep on feeling too damn tired
But waited so damn long for this advice

Given the right way, I choose the wrong
Given the short way, I always choose the long
Given the bad way, you know I wanna take that one
But I keep on moving on, I keep on moving on

It's alright to look on the brightside - you're telling me
I've waited so long to look on the brightside
Now I can see
