When we all fall down

I fell like ever single second the same
It's sort of like suffocating under the reings of satans chaines
That mantine it's a dam shame we all fall liek rain drops on brick walls
And simple fade away into the meriomers of yesterday
And when thers no one left to rember the human race shell cast away
Inside this vast abess of disoray instely viscoley in a moments notice becom
e history

And well this anxiety is pilling high in me I am screaming in silence on the
outside disguising as calmly
Contemplating the irony why would me create a race so violently refusing to
reside in harmony
Constantly cussing clamaty, greed and vanity proceed into decisive each othe
r and destroy humanity
Savage mechanical ravaging families scandalizes cussing these agonies well p
laning these mass catastrophes

Wann be somebody someday somehow someway some pray we can make it to a bette
r day
We got to save face change fate embrace change brake chains try to turn the
page befor it's to late

We got no time tommrow
No promise of tommrow
When we all fall down
When we
When we all fall down

When we all fall down

Heade for rock bottom as the clock counting descending like stocks and bonds
Falling like leaves in autumn we are brought up products by the heartless fo
r reconamecal
Harvest illuminati remain a anonymous block of the economics the end is upon
us I promise just looking for solices, some comfort to something to help oc
cupy these finale hours
A temproy sabbatical from these animels that chew us and consume us like rap
id ravgeing canbiles
Mechnale mamles with amo wearing camo there mind is so narrow death and dest

ruction is the only senaro
Straight to the burial bombs are doping form aireos there motivations are th
e only compensation of materials
And this planet we'v attacked with our habits in the sades state from fallin
g form grace since we've inhabited
Such a disgrace we became a race that's complacent, ungrateful, wast full an
d hateful sham full savages

Wann be somebody someday somehow someway some pray we can make it to a bette
r day
We got to save face change fate embrace change brake chains try to turn the
page befor it's to late

We got no time tomorrow
No promise of tomorrow
When we all fall down
When we
When we all fall down
