

nobody

PRYVT

Remember the time we were talking all night?
Feeling your breath under my skin
Were we falling in love?
Was it more than enough?
Making me all feel like a fool
Never mind, I never understood
Did it even matter to you?
Calling it fun, been losing it all
Thought you were the one

I don't wanna fall in love with nobody, nobody, nobody
Tell me, did you ever wanna know 'bout me, know 'bout me, know
'bout me?
Never really cared to understand
Can I call this love, 'cause I've never had?
I know nothing ever lasts but I want me and you to

Was it you babe? (Was it you babe?)
Regretting who I am 'cause of you babe ('Cause of you babe)
Tell me if you got anymore to say
You don't wanna stay and that's okay
My feelings may be gone but my memory will have you forever

I don't wanna fall in love with nobody, nobody, nobody
Tell me did you ever wanna know 'bout me, know 'bout me, know '
bout me?
Never really cared to understand
Can I call this love, 'cause I've never had?
I know nothing ever lasts but I want me and you to

Never really cared to understand
Can we call this love, 'cause I've never had?
I know nothing ever lasts but I want me and you to
