

WHILE IT RAINS

PRYVT

I'll hold you close while our hairs turning gray
Every morning, night and day
We'll sit by the window and watch while it rains
No other words will ever explain

Stay by me, don't matter what they say
We'll walk all night long and talk all we want
Then drive home while you fall asleep, next to me
I can't believe, I never thought I'd be
Next to someone like you
Someone like you
