

## Black Panther

Psyche

It's the black panther  
Coming out from inside  
It's the black panther  
Holding me down I'm paralyzed

Searching for reasons  
I hold the camera  
Up to the light  
The picture's changing  
Something is moving  
Slipping into the night

It's the black panther  
Coming out from inside  
It's the black panther  
Holding me down I'm paralyzed

Screeching the tires  
Cheap advertisements  
Got me into its sights  
An abstract instinct  
And the urges can't be denied
